- 3. Our in-house procurement operations for renewable energy space projects expose us to certain risks:** We may incur unexpected expenses if the suppliers of components in our power projects default on their warranty obligations. We are exposed to construction cost risks, including increases in the price and availability of land, labour, equipment and materials, delays in delivery of equipment and materials, local and seasonal weather conditions and unforeseen design, engineering or site conditions. Although we generally obtain warranties from our equipment suppliers and Erection All Risk (EAR) Insurance Policies, we cannot assure that we will be successful with any warranty or insurance claims.
- 4. Dependence on Technology Partners:** We are dependent on our Technology Partners for various hardware and software products which we provide to our clients. As of March 31, 2026, 65.84% of our purchase from Technology Partners are from top three Technology Partners. We do not enter into any long-term contracts with our Technology Partners for supply of these products. Any failure on part of our Technology Partners to deliver products in necessary quantities, to adhere to delivery schedules or to meet specified quality standards or technical specifications, could adversely affect our ability to deliver orders on time to our clients. The following table depicts the expenses towards procurement of equipment and other related services from technology partners as a percentage of total expenses of the Company:

(In ₹ lakhs, except for percentages)

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Expenses towards procurement of equipment and other related services from technology partners	1,13,426.94	1,20,521.66	87,721.45
% of total expenses	84.08%	95.46%	91.36%

- 5. Risk Relating to Bidding for New Projects:** We may not always be able to qualify for, compete and win projects. The success rate of the bids made by us in Fiscals 2026, 2025, and 2024, were 19.48%, 24.57%, and 30.91%. The growth of our business mainly depends on our ability to obtain new projects. In the event that we are not able to continually and consistently secure new projects of similar or higher value this would have an adverse impact on our financial performance. Further, as we are new to the Renewable Energy Space, we may not be eligible for specific projects where experience is required.
- 6. Negative Cash Flows:** We have experienced negative cash flow from operating activities of ₹(1,798.14) lakhs in Fiscal 2025 and any negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition. There can be no assurance that our future cash flows will be positive, which may affect our ability to meet working capital requirements, repay loans, or fund operations without raising additional external financing. The following table sets forth certain information relating to our cash flows for the Fiscals 2026, 2025, and 2024:

(In ₹ lakhs)

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Net cash from/ (used in) operating activities	1,247.58	(1,798.14)	5,518.60
Net cash from/ (used in) investing activities	(10,166.05)	(1,265.20)	(2,131.56)
Net cash from/ (used in) financing activities	10,387.64	1,593.78	(1,304.89)
Net increase/ (decrease) in cash and cash equivalents	1,469.17	(1,469.56)	2,082.15
Cash and cash equivalents at the end of the period/ year	2,130.81	661.64	2,131.20

- 7. Working Capital Requirements Risk:** Our business is working capital intensive. We have a continued and sustained working capital requirements to maintain sufficient inventory of products for steady supply. Our working capital requirements in the Fiscals 2026, 2025, and 2024 were ₹15,711.93 lakhs, ₹12,277.08 lakhs and ₹5,757.62 lakhs, respectively. Our inability to maintain sufficient cash flows, credit facilities and other sources of funds, in a timely manner or at all, to meet our working capital requirements may adversely affect our operations and financial condition.
- 8. Client Concentration Risk:** We derive a significant portion of our revenues from a limited number of clients. As of March 31, 2026, our revenue contribution from our top five clients was ₹1,07,061.89 lakhs, representing 76.66% of the revenue was recognized from our top five clients for the said period. The loss of any significant clients or delay, cancellation, termination and rescission of any specific projects from any of such clients may have an adverse effect on our business, financial condition, results of operations, and prospects. There can be no assurance that we will not lose all or a portion of the revenue generated from these clients or will be able to offset such loss by obtaining new clients in a timely manner.
- 9. Renewable Energy Business Risk:** Certain portion of our Company's revenue is now derived from, and is dependent upon, the renewable energy sector, particularly Renewable Energy EPC and Renewable Energy PPAs, which is a new line of business for us, in which the expertise of our Promoters and senior management is minimal. As on June 30, 2026, of our total Order Book of ₹2,66,344.35 lakhs, an aggregate of ₹2,35,404.38 lakhs (constituting 88.38% on a standalone basis and 90.59% on a consolidated basis) is attributable to renewable energy projects. Accordingly, a significant portion of our future revenue is expected to be dependent on the renewable energy sector, in which the expertise of our Promoters and senior management is minimal.
- 10. Performance Bank Guarantee Risk:** We are required to furnish PBGs as part of our business contracts and we competitively bid for Government/PSU projects where such bank guarantees may be required. Our inability to arrange such guarantees, the invocation of such guarantees, or our inability to win and service sufficient competitive bids, may adversely affect our business, cash flows, financial condition, results of operations and the deployment of the Net Proceeds against the object of 'expansion of business by securing PBGs for projects'. If we are unable to maintain required margins to secure the PBGs, we may not be able to continue obtaining new PBGs in sufficient quantities to match our business requirements and this can impact our ability to bid for and enter into new contracts.
- 11. Multi-Local Project Execution Risk:** We have been involved in and will continue to be involved in a number of multi local project. Since, such procedural requirements involve multiple stakeholders at multiple check points, we cannot assure that all such necessary procedural requirements will be completed in a timely manner, which could delay timely completion of our contractual obligations. If we are not able to manage the risk of such expansion, it could have a material adverse effect on our operations.
- 12. Brand Partner and Product Quality Risk:** Our Company is not an original equipment manufacturer of electronic items and accessories, and we depend on third party procurements for our operations under IT Infrastructure, IT managed services, and Experience Zones. There can be no assurance that companies which are owners of various leading electronic products will be able to effectively promote, develop their brands or maintain standard quality of the electronic products. If any of the offerings which we launch from our Experience Zones from time to time do not meet standards for quality and performance or customers' subjective expectations, our Company's reputation and customer retention may be impacted.
- 13. Indebtedness and Financing Covenants Risk:** We have incurred indebtedness and an inability to comply with repayment and other covenants in our financing agreements could adversely affect our business and financial condition. As at June 30, 2026, the total outstanding borrowings by our Company and its Subsidiaries, on a consolidated basis was ₹31,854.82 lakhs (including fund-based borrowings of ₹21,154.72 lakhs and non-fund-based facilities comprising bank guarantees of ₹10,700.10 lakhs). A failure to observe the covenants under our financing arrangements constitute defaults under the relevant financing agreements and will entitle the respective lenders to declare a default against us and enforce remedies under the terms of the financing agreements.
- 14. Government/PSU Contractual Terms Risk:** Our projects with Government/PSU clients usually contain terms that are framed by them and our ability to negotiate terms of these projects is limited and we may have to accept exacting provisions. The contractual terms may present risks to our business, including: liability for defects arising during the warranty period; clients' discretion to grant time extensions, which may result in project delays and/or cost overruns; the right of the Government/PSU clients to terminate the projects without cause after providing us with the required written notice; and the right of the Government/PSU clients to debar us from bidding from future projects with them upon failure on our part to perform or remedy failure after providing us with the required written notice. In the event we commit a delay in delivering the products, we may be subjected to a penalty amounting to a maximum of 10% of the project value.
- 15. Strategic Diversification and New Business Risks:** Our strategic diversification into new lines of business, being Renewable Energy EPC and PPAs and retail sales through Experience Zones, may expose us to more challenges and new risks. We may also make substantial investments in undertaking activities relating to the new lines of business and expansion of our offerings or business verticals may also strain our management and operational resources. We cannot assure you that we will be able to recover our investments in these new lines of business or that any products or services being rendered pursuant to these new lines of business will be successful by any measure. The segment wise revenue contribution for the financial years ended Fiscal 2026, Fiscal 2025, and Fiscal 2024, is as follows:

(Amount in ₹ lakhs)

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Revenue generated from Operation	% of Revenue from Operation	Revenue generated from Operation	% of Revenue from Operation	Revenue generated from Operation	% of Revenue from Operation
IT Infrastructure	1,19,848.88	85.81%	1,22,431.53	93.22%	93,500.81	91.62%
IT managed services	7,344.13	5.26%	8,899.84	6.78%	8,556.66	8.38%
Renewable Energy Solar EPC	12,469.60	8.93%	-*	-*	-*	-*

*There was no Renewable Energy Space revenue recognised in Fiscal 2025 and Fiscal 2024.

- 16. Dependence on Third Party Service Providers and Suppliers:** We rely on independent contractors and third party service providers for some part of our services and on third party suppliers for our products and any failure on their part to perform their obligations could adversely affect our reputation, business, results of operations and cash flows. In case the independent contractors and third party service providers on which we depend are unable to continue to provide their services, we could have difficulty in operating key aspects of our business. The failure of any of our suppliers to deliver these materials or components in the necessary quantities, to adhere to delivery schedules for supply, or to comply with specified quality standards and technical specifications, could adversely affect our projects.
- 17. Credit Rating Downgrade Risk:** Any downgrade in our credit ratings currently "Crisil BBB+/Stable" (long-term) and "Crisil A2" (short-term) from Crisil Ratings, "IVR BBB with a stable outlook" (long-term) and "IVRA3+" (short-term) from Infomercials, and "ACUITTE B+" (long-term) and "ACUITTE A4" (short-term) from Acuite Ratings & Research, could increase our borrowing costs, affect our ability to obtain financing, and adversely affect our business, results of operations and financial condition. We cannot assure you that our Company's instruments will not face ratings downgrades in the future. Any downgrade in our credit ratings could increase borrowing costs, result in an event of default under our financing arrangements and adversely affect our access to capital and debt markets.

- 18. Risk Relating to IREDA Loan Conversion:** Our Company has availed a Rupee Term Loan facility of ₹100.10 Crores from Indian Renewable Energy Development Agency Limited ("IREDA") which may be subject to conversion into Equity Shares of our Company upon the occurrence of a payment-related Event of Default. In the event IREDA exercises the conversion right, the shareholding of our existing Promoters and public Shareholders may be significantly diluted and IREDA may become one of the largest Shareholders of our Company. The market price of the Equity Shares may be adversely affected due to the issuance of a large number of Equity Shares at a potentially unfavourable valuation. - 3. Our in-house procurement operations for renewable energy space projects expose us to certain risks:** We may incur unexpected expenses if the suppliers of components in our power projects default on their warranty obligations. We are exposed to construction cost risks, including increases in the price and availability of land, labour, equipment and materials, delays in delivery of equipment and materials, local and seasonal weather conditions and unforeseen design, engineering or site conditions. Although we generally obtain warranties from our equipment suppliers and Erection All Risk (EAR) Insurance Policies, we cannot assure that we will be successful with any warranty or insurance claims.
- 4. Dependence on Technology Partners:** We are dependent on our Technology Partners for various hardware and software products which we provide to our clients. As of March 31, 2026, 65.84% of our purchase from Technology Partners are from top three Technology Partners. We do not enter into any long-term contracts with our Technology Partners for supply of these products. Any failure on part of our Technology Partners to deliver products in necessary quantities, to adhere to delivery schedules or to meet specified quality standards or technical specifications, could adversely affect our ability to deliver orders on time to our clients. The following table depicts the expenses towards procurement of equipment and other related services from technology partners as a percentage of total expenses of the Company:

(In ₹ lakhs, except for percentages)

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Expenses towards procurement of equipment and other related services from technology partners	1,13,426.94	1,20,521.66	87,721.45
% of total expenses	84.08%	95.46%	91.36%

- 5. Risk Relating to Bidding for New Projects:** We may not always be able to qualify for, compete and win projects. The success rate of the bids made by us in Fiscals 2026, 2025, and 2024, were 19.48%, 24.57%, and 30.91%. The growth of our business mainly depends on our ability to obtain new projects. In the event that we are not able to continually and consistently secure new projects of similar or higher value this would have an adverse impact on our financial performance. Further, as we are new to the Renewable Energy Space, we may not be eligible for specific projects where experience is required.
- 6. Negative Cash Flows:** We have experienced negative cash flow from operating activities of ₹(1,798.14) lakhs in Fiscal 2025 and any negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition. There can be no assurance that our future cash flows will be positive, which may affect our ability to meet working capital requirements, repay loans, or fund operations without raising additional external financing. The following table sets forth certain information relating to our cash flows for the Fiscals 2026, 2025, and 2024:

(In ₹ lakhs)

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Net cash from/ (used in) operating activities	1,247.58	(1,798.14)	5,518.60
Net cash from/ (used in) investing activities	(10,166.05)	(2,265.20)	(2,131.56)
Net cash from/ (used in) financing activities	10,387.64	1,593.78	(1,304.89)
Net increase/ (decrease) in cash and cash equivalents	1,469.17	(1,469.56)	2,082.15
Cash and cash equivalents at the end of the period/ year	2,130.81	661.64	2,131.20

- 7. Working Capital Requirements Risk:** Our business is working capital intensive. We have a continued and sustained working capital requirements to maintain sufficient inventory of products for steady supply. Our working capital requirements in the Fiscals 2026, 2025, and 2024 were ₹15,711.93 lakhs, ₹12,277.08 lakhs and ₹5,757.62 lakhs, respectively. Our inability to maintain sufficient cash flows, credit facilities and other sources of funds, in a timely manner or at all, to meet our working capital requirements may adversely affect our operations and financial condition.
- 8. Client Concentration Risk:** We derive a significant portion of our revenues from a limited number of clients. As of March 31, 2026, our revenue contribution from our top five clients was ₹1,07,061.89 lakhs, representing 76.66% of the revenue was recognized from our top five clients for the said period. The loss of any significant clients or delay, cancellation, termination and rescission of any specific projects from any of such clients may have an adverse effect on our business, financial condition, results of operations, and prospects. There can be no assurance that we will not lose all or a portion of the revenue generated from these clients or will be able to offset such loss by obtaining new clients in a timely manner.
- 9. Renewable Energy Business Risk:** Certain portion of our Company's revenue is now derived from, and is dependent upon, the renewable energy sector, particularly Renewable Energy EPC and Renewable Energy PPAs, which is a new line of business for us, in which the expertise of our Promoters and senior management is minimal. As on June 30, 2026, of our total Order Book of ₹2,66,344.35 lakhs, an aggregate of ₹2,35,404.38 lakhs (constituting 88.38% on a standalone basis and 90.59% on a consolidated basis) is attributable to renewable energy projects. Accordingly, a significant portion of our future revenue is expected to be dependent on the renewable energy sector, in which the expertise of our Promoters and senior management is minimal.
- 10. Performance Bank Guarantee Risk:** We are required to furnish PBGs as part of our business contracts and we competitively bid for Government/PSU projects where such bank guarantees may be required. Our inability to arrange such guarantees, the invocation of such guarantees, or our inability to win and service sufficient competitive bids, may adversely affect our business, cash flows, financial condition, results of operations and the deployment of the Net Proceeds against the object of 'expansion of business by securing PBGs for projects'. If we are unable to maintain required margins to secure the PBGs, we may not be able to continue obtaining new PBGs in sufficient quantities to match our business requirements and this can impact our ability to bid for and enter into new contracts.
- 11. Multi-Locational Project Execution Risk:** We have been involved in and will continue to be involved in a number of multi locational projects. Since, such procedural requirements involve multiple stakeholders at multiple check points, we cannot assure that all such necessary procedural requirements will be completed in a timely manner, which could delay timely completion of our contractual obligations. If we are not able to manage the risk of such expansion, it could have a material adverse effect on our operations.
- 12. Brand Partner and Product Quality Risk:** Our Company is not an original equipment manufacturer of electronic items and accessories, and we depend on third party procurements for our operations under IT Infrastructure, IT managed services, and Experience Zones. There can be no assurance that companies which are owners of various leading electronic products will be able to effectively promote, develop their brands or maintain standard quality of the electronic products. If any of the offerings which we launch from our Experience Zones from time to time do not meet standards for quality and performance or customers' subjective expectations, our Company's reputation and customer retention may be impacted.
- 13. Indebtedness and Financing Covenants Risk:** We have incurred indebtedness and an inability to comply with repayment and other covenants in our financing agreements could adversely affect our business and financial condition. As at June 30, 2026, the total outstanding borrowings by our Company and its Subsidiaries, on a consolidated basis was ₹31,854.82 lakhs (including fund-based borrowings of ₹21,154.72 lakhs and non-fund-based facilities comprising bank guarantees of ₹10,700.10 lakhs). A failure to observe the covenants under our financing arrangements constitute defaults under the relevant financing agreements and will entitle the respective lenders to declare a default against us and enforce remedies under the terms of the financing agreements.
- 14. Government/PSU Contractual Terms Risk:** Our projects with Government/PSU clients usually contain terms that are framed by them and our ability to negotiate terms of these projects is limited and we may have to accept exacting provisions. The contractual terms may present risks to our business, including: liability for defects arising during the warranty period; clients' discretion to grant time extensions, which may result in project delays and/or cost overruns; the right of the Government/PSU clients to terminate the projects without cause after providing us with the required written notice; and the right of the Government/PSU clients to debar us from bidding from future projects with them upon failure on our part to perform or remedy failure after providing us with the required written notice. In the event we commit a delay in delivering the products, we may be subjected to a penalty amounting to a maximum of 10% of the project value.
- 15. Strategic Diversification and New Business Risks:** Our strategic diversification into new lines of business, being Renewable Energy EPC and PPAs and retail sales through Experience Zones, may expose us to more challenges and new risks. We may also make substantial investments in undertaking activities relating to the new lines of business and expansion of our offerings or business verticals may also strain our management and operational resources. We cannot assure you that we will be able to recover our investments in these new lines of business or that any products or services being rendered pursuant to these new lines of business will be successful by any measure. The segment wise revenue contribution for the financial years ended Fiscal 2026, Fiscal 2025, and Fiscal 2024, is as follows:

(Amount in ₹ lakhs)

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Revenue generated from Operation	% of Revenue from Operation	Revenue generated from Operation	% of Revenue from Operation	Revenue generated from Operation	% of Revenue from Operation
IT Infrastructure	1,19,848.88	85.81%	1,22,431.53	93.22%	93,500.81	91.62%
IT managed services	7,344.13	5.26%	8,899.84	6.78%	8,556.66	8.38%
Renewable Energy Solar EPC	12,469.60	8.93%	-*	-*	-*	-*

*There was no Renewable Energy Space revenue recognised in Fiscal 2025 and Fiscal 2024.

- 16. Dependence on Third Party Service Providers and Suppliers:** We rely on independent contractors and third party service providers for some part of our services and on third party suppliers for our products and any failure on their part to perform their obligations could adversely affect our reputation, business, results of operations and cash flows. In case the independent contractors and third party service providers on which we depend are unable to continue to provide their services, we could have difficulty in operating key aspects of our business. The failure of any of our suppliers to deliver these materials or components in the necessary quantities, to adhere to delivery schedules for supply, or to comply with specified quality standards and technical specifications, could adversely affect our projects.
- 17. Credit Rating Downgrade Risk:** Any downgrade in our credit ratings currently "Crisil BBB+/Stable" (long-term) and "Crisil A2" (short-term) from Crisil Ratings, "IVR BBB with a stable outlook" (long-term) and "IVRA3+" (short-term) from Infomercis, and "ACUITE B+" (long-term) and "ACUITE A4" (short-term) from Acuite Ratings & Research, could increase our borrowing costs, affect our ability to obtain financing, and adversely affect our business, results of operations and financial condition. We cannot assure you that our Company's instruments will not face ratings downgrades in the future. Any downgrade in our credit ratings could increase borrowing costs, result in an event of default under our financing arrangements and adversely affect our access to capital and debt markets.

- 18. Risk Relating to IREDA Loan Conversion:** Our Company has availed a Rupee Term Loan facility of ₹100.10 Crores from Indian Renewable Energy Development Agency Limited ("IREDA") which may be subject to conversion into Equity Shares of our Company upon the occurrence of a payment-related Event of Default. In the event IREDA exercises the conversion right, the shareholding of our existing Promoters and public Shareholders may be significantly diluted and IREDA may become one of the largest Shareholders of our Company. - 3. Our in-house procurement operations for renewable energy space projects expose us to certain risks:** We may incur unexpected expenses if the suppliers of components in our power projects default on their warranty obligations. We are exposed to construction cost risks, including increases in the price and availability of land, labour, equipment and materials, delays in delivery of equipment and materials, local and seasonal weather conditions and unforeseen design, engineering or site conditions. Although we generally obtain warranties from our equipment suppliers and Erection All Risk (EAR) Insurance Policies, we cannot assure that we will be successful with any warranty or insurance claims.
- 4. Dependence on Technology Partners:** We are dependent on our Technology Partners for various hardware and software products which we provide to our clients. As of March 31, 2026, 65.84% of our purchase from Technology Partners are from top three Technology Partners. We do not enter into any long-term contracts with our Technology Partners for supply of these products. Any failure on part of our Technology Partners to deliver products in necessary quantities, to adhere to delivery schedules or to meet specified quality standards or technical specifications, could adversely affect our ability to deliver orders on time to our clients. The following table depicts the expenses towards procurement of equipment and other related services from technology partners as a percentage of total expenses of the Company:

(In ₹ lakhs, except for percentages)

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Expenses towards procurement of equipment and other related services from technology partners	1,13,426.94	1,20,521.66	87,721.45
% of total expenses	84.08%	95.46%	91.36%

- 5. Risk Relating to Bidding for New Projects:** We may not always be able to qualify for, compete and win projects. The success rate of the bids made by us in Fiscals 2026, 2025, and 2024, were 19.48%, 24.57%, and 30.91%. The growth of our business mainly depends on our ability to obtain new projects. In the event that we are not able to continually and consistently secure new projects of similar or higher value this would have an adverse impact on our financial performance. Further, as we are new to the Renewable Energy Space, we may not be eligible for specific projects where experience is required.
- 6. Negative Cash Flows:** We have experienced negative cash flow from operating activities of ₹(1,798.14) lakhs in Fiscal 2025 and any negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition. There can be no assurance that our future cash flows will be positive, which may affect our ability to meet working capital requirements, repay loans, or fund operations without raising additional external financing. The following table sets forth certain information relating to our cash flows for the Fiscals 2026, 2025, and 2024:

(In ₹ lakhs)

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Net cash from/ (used in) operating activities	1,247.58	(1,798.14)	5,518.60
Net cash from/ (used in) investing activities	(10,166.05)	(1,265.20)	(2,131.56)
Net cash from/ (used in) financing activities	10,387.64	1,593.78	(1,304.89)
Net increase/ (decrease) in cash and cash equivalents	1,469.17	(1,469.56)	2,082.15
Cash and cash equivalents at the end of the period/ year	2,130.81	661.64	2,131.20

- 7. Working Capital Requirements Risk:** Our business is working capital intensive. We have a continued and sustained working capital requirements to maintain sufficient inventory of products for steady supply. Our working capital requirements in the Fiscals 2026, 2025, and 2024 were ₹15,711.93 lakhs, ₹12,277.08 lakhs and ₹5,757.62 lakhs, respectively. Our inability to maintain sufficient cash flows, credit facilities and other sources of funds, in a timely manner or at all, to meet our working capital requirements may adversely affect our operations and financial condition.
- 8. Client Concentration Risk:** We derive a significant portion of our revenues from a limited number of clients. As of March 31, 2026, our revenue contribution from our top five clients was ₹1,07,061.89 lakhs, representing 76.66% of the revenue was recognized from our top five clients for the said period. The loss of any significant clients or delay, cancellation, termination and rescission of any specific projects from any of such clients may have an adverse effect on our business, financial condition, results of operations, and prospects. There can be no assurance that we will not lose all or a portion of the revenue generated from these clients or will be able to offset such loss by obtaining new clients in a timely manner.
- 9. Renewable Energy Business Risk:** Certain portion of our Company's revenue is now derived from, and is dependent upon, the renewable energy sector, particularly Renewable Energy EPC and Renewable Energy PPAs, which is a new line of business for us, in which the expertise of our Promoters and senior management is minimal. As on June 30, 2026, of our total Order Book of ₹2,66,344.35 lakhs, an aggregate of ₹2,35,404.38 lakhs (constituting 88.38% on a standalone basis and 90.59% on a consolidated basis) is attributable to renewable energy projects. Accordingly, a significant portion of our future revenue is expected to be dependent on the renewable energy sector, in which the expertise of our Promoters and senior management is minimal.
- 10. Performance Bank Guarantee Risk:** We are required to furnish PBGs as part of our business contracts and we competitively bid for Government/PSU projects where such bank guarantees may be required. Our inability to arrange such guarantees, the invocation of such guarantees, or our inability to win and service sufficient competitive bids, may adversely affect our business, cash flows, financial condition, results of operations and the deployment of the Net Proceeds against the object of 'expansion of business by securing PBGs for projects'. If we are unable to maintain required margins to secure the PBGs, we may not be able to continue obtaining new PBGs in sufficient quantities to match our business requirements and this can impact our ability to bid for and enter into new contracts.
- 11. Multi-Locational Project Execution Risk:** We have been involved in and will continue to be involved in a number of multi locational projects. Since, such procedural requirements involve multiple stakeholders at multiple check points, we cannot assure that all such necessary procedural requirements will be completed in a timely manner, which could delay timely completion of our contractual obligations. If we are not able to manage the risk of such expansion, it could have a material adverse effect on our operations.
- 12. Brand Partner and Product Quality Risk:** Our Company is not an original equipment manufacturer of electronic items and accessories, and we depend on third party procurements for our operations under IT Infrastructure, IT managed services, and Experience Zones. There can be no assurance that companies which are owners of various leading electronic products will be able to effectively promote, develop their brands or maintain standard quality of the electronic products. If any of the offerings which we launch from our Experience Zones from time to time do not meet standards for quality and performance or customers' subjective expectations, our Company's reputation and customer retention may be impacted.
- 13. Indebtedness and Financing Covenants Risk:** We have incurred indebtedness and an inability to comply with repayment and other covenants in our financing agreements could adversely affect our business and financial condition. As at June 30, 2026, the total outstanding borrowings by our Company and its Subsidiaries, on a consolidated basis was ₹31,854.82 lakhs (including fund-based borrowings of ₹21,154.72 lakhs and non-fund-based facilities comprising bank guarantees of ₹10,700.10 lakhs). A failure to observe the covenants under our financing arrangements constitute defaults under the relevant financing agreements and will entitle the respective lenders to declare a default against us and enforce remedies under the terms of the financing agreements.
- 14. Government/PSU Contractual Terms Risk:** Our projects with Government/PSU clients usually contain terms that are framed by them and our ability to negotiate terms of these projects is limited and we may have to accept exacting provisions. The contractual terms may present risks to our business, including: liability for defects arising during the warranty period; clients' discretion to grant time extensions, which may result in project delays and/or cost overruns; the right of the Government/PSU clients to terminate the projects without cause after providing us with the required written notice; and the right of the Government/PSU clients to debar us from bidding from future projects with them upon failure on our part to perform or remedy failure after providing us with the required written notice. In the event we commit a delay in delivering the products, we may be subjected to a penalty amounting to a maximum of 10% of the project value.
- 15. Strategic Diversification and New Business Risks:** Our strategic diversification into new lines of business, being Renewable Energy EPC and PPAs and retail sales through Experience Zones, may expose us to more challenges and new risks. We may also make substantial investments in undertaking activities relating to the new lines of business and expansion of our offerings or business verticals may also strain our management and operational resources. We cannot assure you that we will be able to recover our investments in these new lines of business or that any products or services being rendered pursuant to these new lines of business will be successful by any measure. The segment wise revenue contribution for the financial years ended Fiscal 2026, Fiscal 2025, and Fiscal 2024, is as follows:

(Amount in ₹ lakhs)

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Revenue generated from Operation	% of Revenue from Operation	Revenue generated from Operation	% of Revenue from Operation	Revenue generated from Operation	% of Revenue from Operation
IT Infrastructure	1,19,848.88	85.81%	1,22,431.53	93.22%	93,500.81	91.62%
IT managed services	7,344.13	5.26%	8,899.84	6.78%	8,556.66	8.38%
Renewable Energy Solar EPC	12,469.60	8.93%	-*	-*	-*	-*

*There was no Renewable Energy Space revenue recognised in Fiscal 2025 and Fiscal 2024.

- 16. Dependence on Third Party Service Providers and Suppliers:** We rely on independent contractors and third party service providers for some part of our services and on third party suppliers for our products and any failure on their part to perform their obligations could adversely affect our reputation, business, results of operations and cash flows. In case the independent contractors and third party service providers on which we depend are unable to continue to provide their services, we could have difficulty in operating key aspects of our business. The failure of any of our suppliers to deliver these materials or components in the necessary quantities, to adhere to delivery schedules for supply, or to comply with specified quality standards and technical specifications, could adversely affect our projects.
- 17. Credit Rating Downgrade Risk:** Any downgrade in our credit ratings currently "Crissil BBB+/Stable" (long-term) and "Crissil A2" (short-term) from Crissil Ratings, "IVR BBB with a stable outlook" (long-term) and "IVR A3+" (short-term) from Infomermics, and "ACUITE B+" (long-term) and "ACUITE A4" (short-term) from Acuite Ratings & Research, could increase our borrowing costs, affect our ability to obtain financing, and adversely affect our business, results of operations and financial condition. We cannot assure you that our Company's instruments will not face ratings downgrades in the future. Any downgrade in our credit ratings could increase borrowing costs, result in an event of default under our financing arrangements and adversely affect our access to capital and debt markets.

- 18. Risk Relating to IREDA Loan Conversion:** Our Company has availed a Rupee Term Loan facility of ₹100.10 Crores from Indian Renewable Energy Development Agency Limited ("IREDA") which may be subject to conversion into Equity Shares of our Company upon the occurrence of a payment-related Event of Default. In the event IREDA exercises the conversion right, the shareholding of our existing Promoters and public Shareholders may be significantly diluted and IREDA may become one of the largest Shareholders of our Company. The market price of the Equity Shares may be adversely affected due to the issuance of a large number of Equity Shares at a potentially unfavourable valuation. Our Promoters may cease to retain control over the management and affairs of our Company.

ભારત 'પ્રથમ'ના મંત્ર સાથે દેશને નવી દિશા આપી છે:શાહ

વડનગર,તા.૧૭
વડાપ્રધાન નરેન્દ્ર મોદીના જન્મદિન અને જનસેવા રાષ્ટ્રસેવાના અવિરત ૨૫ વર્ષના ઐતિહાસિક ઉપલક્ષમાં મહેસાણાના વડનગર ખાતે 'સેવા સંકલ્પ અભિયાન'નો ભવ્ય પ્રારંભ કરવામાં આવ્યો છે. વડનગરના સુપ્રસિદ્ધ શર્મિષ્ઠા તળાવના કિનારે આયોજિત આ કાર્યક્રમમાં કેન્દ્રીય ગૃહ અને

વ્યતીત કર્યા છે. તેમણે જણાવ્યું હતું કે ૨૫ વર્ષના જાહેર જનવામાં તેમના પર ભણ્યારનો એક પણ ડાથ લાગ્યો નથી. વિરોધ પક્ષો પણ તેમના પર વ્યક્તિગત ભણ્યારનો આલેખ કરી શકતા નથી. પ્રધાનમંત્રીએ ૧૪૦ કરોડ ભારતીયોને જ પોતાનો પરિવાર માન્યો છે અને 'ભારત પ્રથમ'ના મંત્ર સાથે દેશને નવી દિશા આપી છે.

ગરીબી રોગામાંથી બહાર લાવવાનું ભગીરથ કાર્ય આ શાસનમાં થયું છે. ૮૦ કરોડ ગરીબોને નિઃશુલ્ક અનાજ, આવસ, શોચાલય, વીજળી, ગેસ સિલિન્ડર અને પ લાખ સુધીની ફક્ત સારવારની સુવિધા પૂરી પાડીને છેવાડાના માનવીનું જીવન સ્તર સુધારવામાં આવ્યું છે. તેમણે ઉમેર્યું કે, ભારતને 'કેઝાઈલ કોઈવ'માંથી બહાર કાઢીને વિશ્વની સૌથી ઝડપથી વિકસીત અર્થવ્યવસ્થા બનાવવાનું શ્રેય નરેન્દ્ર મોદીના મજબૂત નેતૃત્વને જાય છે.

મુખ્યમંત્રી ભૂપેન્દ્ર પટેલે વડાપ્રધાનના જન્મ દિવસે તેમની જન્મભૂમિથી શરૂ થઈ રહેલી બાઈક યાત્રાને રાષ્ટ્ર સેવા સંકલ્પ યાત્રા ગણાવી હતી. તેમણે કહ્યું કે, વડનગરની ભૂમિએ વડાપ્રધાન નરેન્દ્રભાઈ મોદીને દેશપ્રેમ, સેવા-સાદગી અને સમાજ માટે રાષ્ટ્રહિત પ્રથમના ભાવથી સમર્પિત થવાની પ્રેરણા આપી છે. વડાપ્રધાનને આ જ સમર્પણ ભાવથી સતત અને અવિરત જનસેવાથી દેશમાં મોટું પરિવર્તન લાવી દીધું છે તેની વિસ્તૃત ભૂમિકા તેઓએ આપી હતી. આ સંદર્ભમાં તેમણે કહ્યું કે, એક સમયે નગણ્ય ગણાતું ભારત આજે તકીનો દેશ બન્યું છે. જે દેશના કુવાઓ રોજગાર માટે બહારની દુનિયા તરફ જતા એ દેશ આજે મોટો ટેલેન્ટ પૂલ બન્યો છે. ટેકનોલોજીના ઉપયોગમાં પાછળ રહેવાનું ભારતનું મેણું ભાંગીને આજે ડિજિટલ પેમેન્ટથી લઈને સ્પેસ ટેકનોલોજી સુધી ભારતનો ડંકો વાગે છે. આ કાર્યક્રમમાં મહારાષ્ટ્રના નાયબ મુખ્યમંત્રી એકનાથ શિંદેએ વડાપ્રધાનને જન્મદિવસની શુભેચ્છા પાઠવતા જણાવ્યું હતું કે, વડનગરની માટીમાંથી ઉઠેલો અવાજ આજે વૈશ્વિક સ્તરે

વર્ષમાં ૨૫ કરોડ લોકો ગરીબીની રેખામાંથી બહાર આવ્યા છે. જે વડાપ્રધાનની દૂરદર્શી નીતિઓનું પરિણામ છે. તેમણે ઉમેર્યું કે, ભારત આજે વિશ્વની પાંચમી સૌથી મોટી અર્થવ્યવસ્થા બની ગયું છે. આ પવિત્ર પ્રસંગે કેન્દ્રીય ગૃહમંત્રી અને મુખ્યમંત્રી સહિત મહાનુભવોએ ઐતિહાસિક તીર્થયાત્રા શ્રી હરદ્વાર મહાદેવના ચરણોમાં શીશ નમાવી દેશ અને રાજ્યની પ્રગતિ માટે પ્રાર્થના કરી હતી.
